“ I am still stunned and still need time to process this. I've lost my childhood friend, who was genuine and kind. we kept in touch with each other and discussed about life issues and results. she wasn't judgemental at all. She was the smartest one in our class at Owen elementary and Pelham middle school 😊 We've had a chance to see her several years ago, while we were visiting Detroit. Rest easy my friend. You are at peace with no hurt and no pain. Stephanie, stay strong.. you and the children and your aunts will get through this, one day at a time . The Reid Family
