“ *I was so sorry to hear of Cornell, my cousin, had passed even though it wasn't quite a surprise. He was a kind gent to me and always treated me with respect whenever we met. I will miss his spirit as I had already missed his presence. I guess the Lord decided that He wanted him for Himself now that we've enjoyed him since 1954, to place him somewhere around His Throne, as to be absence from the body is to be present with the Lord. Don't know if you can hear me or not Cornell but you rest well in complete peace with the Father for you've done your work here and have spread to share you love to a many people here on earth. And to the rest of our family, prayers for your comfort and healing from the pain of our lost of Cornell Chapman, God bless,.....!!*
