“ *Eddie, I'll always remember you from that you took me to and that many times that you would walk over to my house and I would walk over to yours, I'm so glad we had that time together. Every time we would see each other we would always reminisce about the good ole days. I'm gonna miss seeing you on the porch some days when I would drive down Martin. You have your wings now, fly high my friend. With all my love Janice Flowers:*
