“ *Gary, I remember how much you loved music, all genres. As a child growing up in the inner city, I only knew R &B...but then you introduced rock, folk and metal. I love music, Myron loves music and now Stacia loves music. As I said before, music is life. I will miss you so much! how can a crazy person full of life, leave us now? God has a purpose and a plan, but you will be missed big brother, for real, my heart is just aching -Sunsun*
