“ *My heart is heavy but I know you are in a better place. I have been thinking back on some of my memories of you and I remember all of the letters we exchanged when you got married and moved from home. I missed you when you left home and you promised to always keep in touch with your little sister. I used to write you a letter every week and you took the time to return my letters. These are memories I will never forget. Funny how many years have past and I still remember your old address and zip code. You have a new address now, you are and will always be in my heart.
I love you with all my heart.
Your Baby Sister.*
