MW

“ He was by far the most gentle, genuine man I have ever had the pleasure of being a student under. I just found out about his passing and I'm deeply sorry for your loss. I passed my math courses because he took the time to make sure I understood.

LM

“ Harry was my friend. He was always smiling and joking around. We met when we were neighbors at Spartan Village apartments on the campus of Michigan State University. He loved buying his son and all of the neighborhood kids ice cream treats. When I needed help moving Harry picked up my 2 drawer office depth filing cabinet full of papers and said "Where do you want this, Laura? " I said, "Harry, that's heavy. You are supposed to take the drawers out before you move it." That's just the way Harry was, always smiling and doing nice things for people. After he retired from GM, he loved teaching mathematics at several community colleges. We both worked at LCC. I often went for a run after teaching. Harry joked that he could beat me because he ate his wheaties. Harry wasn't built to be a runner, but that didn't stop him from trying. I have missed him for years. He was a very good man and a wonderful friend.

MS

“ Harry was always a very positive guy with not a bad word about anyone. He was a joy to be around and had an infectious smile that made you glad know him. He always called to check on me and my family just to say hello. He was a bright light that will be sorely missed.
