“ For "Auntie Toni"

*For as long as I can remember Auntie Toni has always been the same. She was the embodiment of so many great qualities.*

*I'd like to take a moment to explain.*

*The impression she made everywhere she went was bold, energetic, cheerful and confident.*

*No matter the occasion she always made you smile with her "hey boo", outstretched arms for a hug or even just conversing with her for a while.*

*She had a way of making everyone feel inclusive and important that coincided with all the great times she created.*

*It is such a misfortune that we won't have her around, but she left with us a statement so meaningful and profound.*

*Things were not always perfect but you never could tell for she made it known that love would prevail.*

*My dear Auntie id like you you to know*

*That your lifetime of gifts of strength, love and kindness will not go in vain & we'll hold you close to our hearts until we meet again.*

*Love Jasmine (Niece)*
