“ Renee and I are two sisters children she is my first cousin Renee would always make me laugh she had a cheerful heart and to be around her it was a joy for me my first cousin every time I need her she was there for me I love the way that she would minister to me I could always call on her and she was always there I remember when She was about 11 and I was about 12 and my mothers old man at the time took us to the state fairgrounds in 1971 and we got to witness history the first time the Jackson five did the very first concert in Detroit we had a blast and me and Renee just talked about this a couple of months ago we laughed it was like we were still at the concert we laughed and it was so much fun and I have so many memories of her but this is one of my greatest memories that it was just me and her and how we had enjoyed each other I had a really blessed and spiritual cousin and I will always love her and she will always be in my heart she was just an all-around great person, she will be greatly missed and I know that she is with God because she was not just a hearer of the word Renee was also a doer of the word of God she was my personal angel my personal minister and I just want to thank God for placing her in our family she was a great leader also because she layed Everyone in the family that would come to Christ even myself and I know God is pleased with her and I know that he will say well done except her with open arms

“ *Once again called his child to come home. We only know that we belong to him and when he needs us we answer. Family stay strong and believe his word. For he will never leave or forsake us. Hold on to each other even stronger now.*
