“ *This is so hard to write. Though much time has passed since we last spoke or crossed paths, I never stopped praying for you, I never stopped caring for you, I never stopped wanting the best for you. I'm filled with so much sadness - you left this earth much too soon. But I know you are in a better place - smiling down on us. I pray for your family and all those who love you - may they find strength and comfort in God. Rest in peace my friend.##imported-begin##Kapria##imported-end##*

“
*ive been places today
in my mind most of the grusome way
and ive seen the things that stain souls and refract retrosect in even
paces
like mahagony streches of enternity..white satin seating of the soul
and softly arannged fingers facing god
and i looked upon you from perches in my memories inclination
and saw how time has reflected our twin gap through parted
devember lips
and in the crowded faces
empty reolection and misplaced hatred
i could hear you
splatter your voice accross our faces
tug ur chain and call for the flawless interchanges
between deaths of kings and the weakneses of temptation
and felt your breath
against my neck
tellin me that time held illusionary hesitation
and saw u baby the way god wanted you to be
and clamoured despretly quenched in the way heaven always
tasted to me
and all those severed love touched creases
waited patiently for your hands to meet them.....
and
gasps of heartbeat flinches
faltering along aisles
shuffled between restless preechings
like the slight specks of light along your eye laches
the ebb and sawy
body's encapsulation of soul on display
and i found you there amongst the deep blue hardbody paint
drenched in life
full of enamerous escalations of self and sight and soaring fate
and traced my fingers slightly over the internal schetches
the ones on leather curvy couthes
late night interwinding of fingers, fearlessness, and flight of*

conversation

*safley pressed against your cheek
in dim westside morning sheets
a star tattood on my morning reach
and lions near your epic heart beat,
babyy...*

and while there today

i cut ties with all the places

the loney internal cells of time stunted waiting

and i painted me there on greenview

in may and all its ripe awakning

and held my breath one last time at your door

blushing little girl no more

and touched u deep against the jade embeded place you rest

bowed my head at your impressions in my grasp

touched your forign skin no less...

and thanked you for all the kisses, heartstreaks, october wishes

made on fallin leaves

through winshield wanderings of your sun socked eyes

and still

lamar how can i bring myself to sever my soul

from the only man who never made me cry##imported-begin##mary
