“ For my beautiful Mother: I was her 1st born. The one who went through the trenches with you. You was one hellava woman and mother. I got my business savy from you, I got my educational mindset from you. I've seen you as a little girl have a great work ethic which is where I got my work ethics from. You motivated and showed me things only a Mother could show me. I thank you for trusting me with handling business and for knowing I would make great decisions on your behalf. I could always depend on you when I needed anything. You always comforted me. You always said I reminded you of YOUR mother. There was so many talks on the phone and in person with laughter or giving advice which I will always treasure. Mama I thank you for making me that video that I asked you for because I have your face and your voice on that recording from January 2023 giving some of your fondest memories. They always say honor thy Mother and thy Father for your days will be long. And I think I did well honoring you because 2 days before you went to be with the father, I stopped over to check on you and we sat on your bed and you told me face to face that you appreciated me for everything I've done for you. For being by your side and for being a great daughter. And you layed your head on my shoulder and I held you as I rubbed up and down your back and arm and you told me You Loved me And I said I loved you too ❤️. And just know I will never forget you Mama. I will miss you and cherish you forever for never giving up on me with anything ❤️ You REST Mother. No more pain. I will be fine with all the lessons you taught me. For teaching me to put GOD 1ST. And, all the Love you've shown me. I'm gonna miss you dearly and I will continue to honor you in death as I did in Life. And yes, I saw you open your eyes Mama real quick for the last time when I told you I was there with you. And yes, that was me again saying I Love you as I kissed your forehead 🥰
