“ *Sylvester and I lived together up till his final minutes of life. During this time I brought great comfort to Sylvester and got much love back from him. Even though he was sickly most of the time we still shared a lot of intimate conversation that only he and I will ever know. We even talked about marriage that's was just how much him and I loved one another. Still loving Sylvester very deeply today wishing he was here with me. I'm going to hold on to that. Sylvester was one of a kind!*
