“ I remember when I was about two or three years old, daddy brought Angelique over to spend the night with us. We were all told that we had to go to bed early. However, when I woke up to use the bathroom, I walked past my parents room and saw that they had let Angelique stay up to watch TV with them. Now mind you Angelique was 11 or 12 years old at the time. I was so jealous and angry that I decided that I would runaway inside the house. So, I hid behind one of the end table to the cocktail table set that was against the wall. I stayed in that spot for so long that I fell asleep. I woke up when I heard them walking around trying to find me, but I still stayed in my spot. Finally, Angelique found me behind the end table and said "Oh, here she is." My mom and dad was so relieved to find me that I did not even get in trouble. My dad had just came back home was some Chinese food. Angelique and my mom went back to bed. My dad asked me if I wanted some Shrimp fried rice and egg roll and I said, "Yes". He sat me down at the kitchen table and prepared a plate and then he sat across from me and ate his food. I was so happy, because I had my dad all to myself and I was eating the best shrimp fried rice ever.
